This application is before the examiner for consideration on the merits.

I. Applicants' prior art citation filed on 24 September 2003 has been considered as those in the parent applications nos. 09/931,315 and 10/279,585.

II. The following is an examiner's statement of reasons for allowance:

(1) McGuckin et al (6,022,674) disclose, teach, suggest, demonstrate and reduce to practice with a method for forming an image of a silver halide color photographic material using a ready-to-use color developer solution comprising a conventional amount of a color developing agent and convention amounts of the known additives of sulfite ions, iodide ions, bromide ions, polyvinylpyrrolidone, organic antioxidant and buffering agent.

(2) Thomas et al (6,010,835) disclose, teach and suggest a three-part concentrate kit for preparing a ready-to-use color developing solution but fail to disclose, teach or suggest a vinyl pyrrolidone polymer in one part concentrate of the kit. Accordingly, the broadest independent claim 10 is allowable.

(3) Since claims 11-22 are depended on the allowable claim 10, they are let to go along with the allowable claim 10 on the record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
